Integrated Management System (IMS) Policy Statement

Bell Integration (Bell) recognise the importance of providing secure and high-quality technology solutions to their customers.

Gordon McPhail

Operations Director

T +44 (0) 207 7100 964

M +44 (0) 779 8828 803

To achieve this, the company devotes significant resources to establish, maintain, monitor and improve processes and controls to maintain their Quality and Information Security Management Systems in accordance with the international standards BS EN ISO 9001:2015 and BS ISO/IEC 27001:2013 respectively.

Likewise, Bell understands that it has a responsibility to the environment beyond legal and regulatory requirements and is committed to protecting the environment by reducing its environmental impacts and continually improving its environmental performance as an integral part of its business strategy, through its CSR plan. Bell encourages all customers, suppliers and other stakeholders to do the same.

Supporting this, Bell is committed to the effective management of Health and Safety and recognises that uncompromising health & safety performance is essential to protect all staff and other parties from injury and ill health and that this ultimately prevents disruption to the business, minimises the loss of valuable assets and protects Bell's reputation.

Supporting commitments:

- Bell will ensure that it complies with all relevant compliance obligations.
- Bell will continue to improve its quality, security, environmental and health & safety performance (alongside its overall management system effectiveness) to ensure that it continues to meet all planned and future requirements and expectations.
- All necessary resources will be provided to support Bell's policy commitments.
- Bell will achieve and maintain certification to BS EN ISO 9001:2015, BS ISO/IEC 27001:2013, BS EN ISO 14001:2015 and BS OHSAS 18001:2007 (soon to be superseded by BS ISO 45001:2018).
- Appropriate training will be provided to all employees (and other people under our control) to ensure that the necessary levels of awareness and competence to support our policy commitments are established and maintained.

IMS Responsibility

- The CEO and Operations Director are responsible for implementing, promoting and supporting this policy.
- The QMS Manager is responsible for conducting regular IMS reviews and for reporting on IMS performance.
