Bell Integration
IOT Smart Stadiums

Reduce cost, drive efficiencies, increase revenue, improve security and safety

Smart Stadiums IoT Capabilities

By deploying an end to end solution consisting of devices, real time business intelligence, management and automation, stadiums can drive operational efficiencies, increase revenue and reduce 'time to act' to events.

Fully managed 'Internet of Things' solutions can deliver real time insight, compliance and big data across a vast array of applications. Devices can monitor anything from footfall to refrigeration faults, whilst providing key real time data back to a unified platform. This allows the venue to act quickly and efficiently, driving operational efficiencies and reducing cost.

Facilities Management
- Reactive washroom cleaning
- Facilities occupancy and footfall
- Litter and waste management
- Pest control alerts on full traps
- Reactive lighting & heating

Crowd Control and Monitoring
- People counting
- Queue monitoring
- Security and overcrowding alerts
- Way finding and controlling crowd flow
- Mass temperature screening
- Seat occupancy

Fan Experience
Re-active information displays:
- Interactive services
- Bar and washroom locations & queues
- Merchandise advertising

Traffic Monitoring
- Parking utilisation
- ANPR
- Congestion
- Illegal parking

Improved Security
- Face recognition watchlist
- Face mask detection
- Staff and VIP access control
- Alerts for dangerous, aggressive or suspicious fan behaviour
- Perimeter intrusion detection
- Door breach alerts

Well-being and Compliance
- Temperature alerts on fridge and freezers to avoid food waste
- Waterflow sensors to prevent legionella and detect leaks
- Capture all slips trips and falls for claim defensibility and to improve safety
- Environmental and air quality monitoring

How Bell Integration Can Help

Delivering value from a connected world of things requires internet connected solutions. Bell Integration brings the experience in building supply chain ecosystems that enables you to deliver faster scalable solutions in an ever-evolving world.

We Deliver An End To End IOT Capability

Bell Integration distinguishes itself by not simply being a device manufacturer or a standalone service management company.

We deliver an end to end capability, from procurement, asset management, logistics, deployment and ultimately customer support in a multi vendor world. We have over 20 years' experience in this capability.
