

Our Certificates and Accreditations

Global Standards to Better Serve You

For over 25 years Bell Integration have been offering their customers disruptive, market leading technology solutions and IT managed services that reduce cost and improve productivity and increase business efficiency.

LRQA certifications:

LRQA ISO 9001 – Quality Management

Globally recognised, our ISO 9001 quality management standard ensures that our products and services consistently meet and exceed our customers’ requirements.

LRQA ISO 14001 – Environmental Management

Our ISO 14001 certification demonstrates our commitment to reducing the environmental impact of Bell Integration. It helps us to reduce waste and running costs.

LRQA ISO 27001 - Information Security

Our ISO 27001 certification is internationally recognised. It allows us to better manage our information assets and protect against computer-assisted fraud, cyber attack, sabotage and viruses.

LRQA ISO 45001 - Occupational Health & Safety

Our ISO 45001 certification is internationally recognised and is issued to protect employees and visitors from work-related accidents and diseases. It ensures we continue to provide a healthy and safe working environment for all who visit our locations.

Environmental & Security Certifications:

ADISA certified facilities - with Distinction

Our storage and processing facilities meet the standard set by ADISA (Asset Disposal and Information Security Alliance) for safely disposing of IT equipment while ensuring the security of any data stored on hardware.

Blancco Data Erasure - Silver Partner

As a Blancco Silver Partner we can provide our clients with confidence and proof that their redundant IT hardware is securely erased to a government standard. We can provide data erasure at our facilities or deploy one of our specialist teams to our clients site.

WEEE Authorised Treatment Facility (ATF)

Our facilities are WEEE authorised to process and carrying out treatment on waste electrical and electronic wastes. Treatments can include disassembly, shredding or preparation for disposal.

EA Waste Processor, Transporter & Producer

The nature of our IT Recycling and data destruction services means we collect, process and dispose of hazardous waste. Our accreditation proves that we comply with the governing legislation and have all the relevant environmental permits.

Alcumus SafeSupplier

We are a verified SafeSupplier. Our accreditation proves that we demonstrate compliance with increasingly stringent legislation in health and safety, quality, ethical best practices and responsible growth.

Cyber Essentials

We have a certificate of assurance to prove that we meet the requirements of the Cyber Essentials Scheme and have demonstrated our commitment to cyber security safety. We have certified cyber security to reassure customers that we are working to secure your IT against cyber attack.

Ecovadis Silver Medal Status

EcoVadis is an international rating agency specialised in assessing the sustainability of companies and supervised by a scientific committee of sustainability and supply chain experts to ensure reliable third-party sustainability assessments.

Transport Certifications:

Freight Transport Association

As a freight operator our membership to the FTA proves that Bell Integration is fully compliant with the latest legislation, as well as following the best codes of practice with our IT transport and logistics operations.

Fleet Operator Recognition Scheme - Bronze Accreditation

As a bronze accredited FORS (Fleet Operator Recognition Scheme) member, our IT transport and logistics operations teams are exceeding industry standards in managing work related road risk (WRRR) and are able to demonstrate incredibly high levels of best practice in safety, efficiency and environmental protection.

Contact us

With over 25 years of experience and offices across the globe, Bell Integration delivers Data Centre, Cloud and End User services within some of the world’s most prestigious customer environments. With capabilities covering technology provision, consulting, project & managed services and asset retirement services, we add value to our customers at several touch points throughout the life-cycle of their IT environments.
