- Maintaining agility and addressing new operational demands
- Specialist know-how and expertise
- Why Bell Integration

A woman and a man in a server room. The woman is holding a tablet and pointing at it, while the man looks on. The background is a server rack with blue lighting and geometric patterns.

From project design to execution, we can provide **the people, the know-how, the capabilities and the deep technical knowledge** needed to confidently transition to new technology platforms.

Maintaining agility and addressing new operational demands means that digital transformation is high on your agenda. But undertaking major change initiatives is a challenge when you need to maintain an intensive focus on day-to-day operations.

.....

Today you're tasked with some top challenges, that include:

- Optimising the performance of your IT operations
- Driving a culture of continuous innovation and improvement
- Keeping your distributed assets and operations secure and working efficiently
- Achieving cost and energy reductions that create long-term sustainable value
- Enabling new ways of working for competitive advantage

Translating these IT strategic intentions into a tangible reality depends on utilising tried and tested methodologies and deep technology expertise to deliver rapid, sustainable change.

Ensuring that your projects complete **on time and within budget**, and that all anticipated outcomes are realised from the get-go.

To achieve all these goals, you need to bring in experienced specialists who can **steer your IT projects to success**. And that's where Bell Integration can help.

.....

Specialist know-how and expertise

With a decade's worth of experience working with some of the world's leading commercial brands and government agencies, we know how to help CIOs and IT leaders address their mission-critical priorities, orchestrate complexity, and achieve stronger business outcomes in a digital world.

Our Consultancy & Project Management services encompass:

- **Expertise and leadership proven at large scale** in Data Centre transformations and migrations, SD-WAN / SD-NET transformations, End User compute international programmes. Trusted partner for major global Financial Services companies.
- **Project and programme level resources** for major change programmes including multi-faceted data centre migration and consolidation projects through to the rollout of new workforce platforms.
- **Access to the right level of skills and expertise** – from Enterprise Architects to Global Programme Managers and Programme Managers, as well as Technical Engineering resources. All our team have a minimum of 4+ years' experience gained in real-life complex IT programmes. Many of our team have over 20 years of experience across multiple sectors.
- **Support for any IT or business challenge** – whether you need help with small-scale projects or you want to realise the full potential of the cloud, we can help reimagine your operating model and implement innovative technology solutions.

With Bell Integration, you'll benefit from the **right execution framework and strategy**, together with all the manpower and governance you need to ensure every element of your change programme happens as planned and in the most time and cost-effective way possible.

Why Bell Integration?

We pride ourselves on delivering on your terms, and yours alone. Which means that with Bell Integration, you're assured of encountering:

A flexible and adaptable approach – we never impose our project delivery methodologies and are happy to work with the systems and processes your people are already familiar with if that works best for your teams.

Portfolio Management as a Service – we can provide a full team to run your projects and manage demand, scaling capacity on your behalf. If you need it, we can also provide a Delivery Team of qualified specialists too.

Flexible commercial models – we offer Time & Materials options alongside Fixed Price Delivery and Outcome Based engagements.

A choice of engagement options – we handle short term tactical assignments through to long term strategic engagements. Switch us on and off as you need, you're in control.

Dedicated to putting customers at the heart of everything we do, we make it easy for you to take as much help and support as you need.
